HD500-EM
Heavy-duty card reader

Access Control

- Compact proximity reader
- Vandal-proof design
- Reading range of up to 6 cm

The HD500-EM reads EM4102 cards (also known as Miro or UNIQUE 125 kHz).

Vandal-proof and fire-resistant, it is popular both in vulnerable locations and modern office environments.

When BC-Link is used, two of these readers can be installed to control entries and exits using only one door controller. An additional benefit of BC-Link is that it supports online status monitoring.
